PROJECT IDEA GUIDE

The Melville Wall™ freestanding and retaining wall system is comprised of a double-sided wall unit, along with a matching cap. All system components feature a simplistic design with modern, smooth faces and subtle chamfers. Multiple installation patterns, including the use of cap units within the wall, lend to its flexibility and simplicity. This wall system is targeted at the professionally installed residential wall markets.

SYSTEM FEATURES AND BENEFITS

- Matching wall and cap units provide a seamless and modern aesthetic.
- Simplistic design allows for easy installation of walls and other outdoor features.
- Multiple installation patterns.
